

The **YOUNG ENGINEERS, Inc.**

engineering • manufacturing • aerospace fasteners

A NOVARIA GROUP™ COMPANY

November 10, 2023

The Young Engineers' Quality Management System is third party certified by DNV to ISO9001:2015 and AS9100:2016 for the design and manufacture of precision metallic and non-metallic components and specialty fastening products for the aerospace industry. Our Quality Management System is approved to 14 CFR, Part 21, Subpart O by the Federal Aviation Administration, and we have Technical Standard Order (TSO) C148 authorization on all applicable fastening products. We are also on the U.S. Defense Logistics Agency's Qualified Suppliers List for Manufacturers (QSLM) for Class 3 Threaded Fasteners (Cage Code 56958), and Nadcap certified for Chemical Processes.

The Young Engineers, Inc. is an approved supplier to many aircraft and aerospace OEMs, MROs and VIP outfitters; a partial listing includes:

Airbus	Greenpoint Technologies
